

Clinic receives recognition from Washington, DC Foundation

Manos Amigas (MA) received an award from The Institute for Technology in Healthcare during the world-wide Project Honduras Conference in Copan Ruinis. The award consisting of a plaque and a \$1,000 cash prize was presented on behalf of the Institute by Dr. Robert Sumner and Dr. Michael Tysowsky, President and Chairman respectively, of the Board of Directors of SATC to Dr. Sonia Bustamante, president of the Manos Amigas Foundation. Dr. Tysowsky said “it brings great satisfaction to SATC in seeing their Honduran partner rewarded for their creative efforts in making certain that healthcare reaches into every barrio of La Entrada.” He added that “seeing physicians give their own free time, working at the clinic and serving without pay, is recognition that they are truly doing God’s work.”
